The sixth series of games in the
Young Men's Christian Association bas-
ket ball league were played in the gym-
nasium of the institution last Saturday
night. Only a small attendance was
present. Green and Gold defeated Dia-
mond Heads by a score of 18-8, after a
hard game. Sophomores won from
Business Men by default.
George Lycurgus says that the story
of an overcharge at his restaurant, as
told in a morning paper, is untrue. Two
gentlemen of the press came in and
asked for a broiled tenderloin steak and
got the usual large one that is served
and had French fried potatoes with it.
Their check was \$1.50, which, George
says, was dirt cheap, considering the
market price of the best meat.
On Saturday afternoon the French
cruiser Pretet was open for a private
reception and dance for about twenty-
five specially invited guests. The ship
was dressed in holiday attire and every
piece of brass shone with a brilliancy
which showed recent polishing. The
wardroom, where the visitors were re-
ceived, was tastefully decorated and a
dainty luncheon given in true French
style was served.

ALSEN PORTLAND CEMENT

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement,
which is the STRONGEST AND MOST SERVICEABLE CEMENT MADE,
and will permit the admixture of a larger amount of sand or gravel, with less
loss of strength, than any other brand; it is therefore the most economical.
ALSEN has no equal in color, fineness and sand carrying capacity. It
weighs less per bushel, measuring about 10 per cent more cement to a barrel
than other brands, which very materially reduces its cost as compared with
other cements. It is therefore an economical cement to use, and specially
adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of
Engineers, U. S. A., at the sea wall around Governor's Island, New York Har-
bor, has never been equalled by other cement. It is as follows: Tensile
strength per square inch—One day, 384 pounds; seven days, 600 pounds; thirty
days, 818 pounds.

For sidewalks it gives the best color and the most durable wearing sur-
face.
A few of the large contracts in which Alsen Cement was used: Cable R.
R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Nor-
thern Pacific R. R. Bridges, 20,000 barrels.
